TERROIR & VINEYARD MANAGEMENT

The terroir in viticulture is not a mystic concept; it can be explained within the framework of agronomic interactions between the vine and its environment.

Training course designed for international professionals dealing with the concept of terroir and the way to manage the vineyard in order to optimize terroir expression.

CONTENTS

- The concept of terroir in viticulture: definition and main factors involved
- Viticultural soils
- Viticultural climates
- Vine water status
- The role of nitrogen in terroir expression
- Choice of plant material
- Management practices to enhance terroir expression
- Scale issues
- The effect of soil and climate on terroir expression through different tasting sessions
- Soil pit studies

- Optimization of terroir expression via oenological practices

WHO IS IT FOR ?

Students, wine estate managers, consultants in oenology and vineyard management, international wine consultants, wine company directors, oenology lab directors, researchers, etc.

Our team of professors and professionals is 100% dedicated to making your training course a great learning experience.

BORDEAUX SCIENCES AGRO

Using its Education,
Research and
Technology transfer
know-how to solve
tomorrow's agronomic,
food and environmental
needs.

As a public institution under the authority of the French Ministry of Agriculture, Bordeaux Sciences Agro collaborates with various institutions in France and abroad through a network of higher agronomic institutes, and has developed close partnerships with the university and scientific campuses in Bordeaux (the University of Bordeaux, IPB, INRA, CNRS, INSERM, IRSTEA, etc.).

For 50 years, Bordeaux Sciences Agro has been able to forge privileged relationships with wine companies. These ties supplement the courses taught by the school by helping increase the professionalism of the curriculum and by fostering the future professional careers of the graduates by ensuring that the courses are suited to the real world.
