

FORMATION  
D'INGÉNIEUR  
AGRONOME

SPÉCIALISATION  
VITIMANAGER

Managing vineyards and wineries within a global economy

BORDEAUX  
SCIENCES  
AGRO

## Outline of the specialization

---

The VitiManager specialization provides advanced training in the specific areas of vineyard and winery management, wine business organizational structure and management. It provides a depth of knowledge and a breath of experiences in the wine industry through graduate courses, seminars, study visits, workshops and internships.

The focus of the track is for 60% wine estate business administration, wine economics and marketing and 40% technical viticulture and enology.

### VitiManager has expertise in:

---

- » business administration
- » marketing
- » global wine economy and markets
- » company auditing
- » vineyard establishment
- » viticultural techniques
- » winemaking
- » sensory analyses

### Highlights of the VitiManager specialization

- > Balanced content between wine economics, business administration and viticultural and enological techniques
- > Track entirely in English
- > Students follow a common track with international students from the Master of Business and Science in Vineyard and Winery Management.
- > International academic staff
- > Extensive international professional network of the pedagogical staff

## The track
