

FORMATION
D'INGÉNIEUR
AGRONOME

SPÉCIALISATION
VITIMANAGER

Managing vineyards and wineries within a global economy

BORDEAUX
SCIENCES
AGRO

Outline of the specialization

The VitiManager specialization provides advanced training in the specific areas of vineyard and winery management, wine business organizational structure and management. It provides a depth of knowledge and a breath of experiences in the wine industry through graduate courses, seminars, study visits, workshops and internships.

The focus of the track is for 60% wine estate business administration, wine economics and marketing and 40% technical viticulture and enology.

VitiManager has expertise in:

- » business administration
- » marketing
- » global wine economy and markets
- » company auditing
- » vineyard establishment
- » viticultural techniques
- » winemaking
- » sensory analyses

Highlights of the VitiManager specialization

- > Balanced content between wine economics, business administration and viticultural and enological techniques
- > Track entirely in English
- > Students follow a common track with international students from the Master of Business and Science in Vineyard and Winery Management.
- > International academic staff
- > Extensive international professional network of the pedagogical staff

The track

The track is common with the Master of Business and Science in Vineyard and Winery Management (MBSci). Students from the VitiManager specialization join the cohort of students from the MBSci in 1st semester, which corresponds to the second semester of the MBSci.
